DONALD GALLIANO III, MHA, RHIA, RPSGT

Marrero, LA | (504) 710-0220 | DonaldGallianoIII@gmail.com | donaldgallianoiii.github.io

Healthcare analytics specialist combining RHIA and RPSGT credentials with hands-on Python, SQL, and Tableau development. Bridges the gap between clinical operations and data strategy, translating complex clinical data into executive-level decisions. Track record in population health consulting, custom BI tool development, and stakeholder engagement with government and healthcare executives.

Portfolio: Consulting deliverables, policy white papers, data analytics tools, and writing samples available at donaldgallianoiii.github.io

TECHNICAL SKILLS

Analytics & BI: Tableau, Power BI, Excel (advanced), statistical modeling, KPI development, dashboard design, ETL processes, data validation, root cause analysis

Development: Python, SQL, JavaScript, HTML/CSS, Git, API integration, voice recognition, data visualization

Healthcare: Epic EHR (Revenue Cycle, CDI, BI), HL7/FHIR, HIPAA, ICD-10/CPT, value-based care, DMAIC, PDSA cycles

CERTIFICATIONS

Registered Health Information Administrator (RHIA) – AHIMA | Registered Polysomnographic Technologist (RPSGT) – BRPT

PROFESSIONAL EXPERIENCE

Healthcare Strategy & Analytics Consultant | *Independent | 2024 – Present*
- Conducted stakeholder interviews with Louisiana state legislators, parish representatives, and healthcare executives to inform population health strategy for 435K-resident service area
- Authored 50+ page policy analysis investigating nursing home regulatory failures (7 deaths, $4M fraud), proposing integrated delivery system expansion including 120-bed skilled nursing facility design
- Modeled $149.6B addressable market for sleep apnea screening integration; designed primary care workflow, EHR flagging system, and revenue sustainability framework
- Developed Epic EHR implementation roadmap including vendor selection criteria, phased rollout timeline, workflow analysis, and staff training program design
- Designed cultural competency care model integrating traditional healers with Western medicine for Navajo Nation population

Polysomnographic Technologist | *LCMC Health | New Orleans, LA | 2022 – Present*
- Perform senior-level sleep staging and scoring, diagnostic study execution, and DME coordination across 4 hospital sites
- Analyze clinical diagnostic data ensuring accuracy, data quality compliance, and Joint Commission audit readiness
- Serve as clinical preceptor training students and new hires; Delgado Community College Sleep Advisory Board member

DATA ANALYTICS PROJECTS

Real-Time Decision Support Tool
- Built web-based probability calculator with real-time statistical modeling, ROI analysis, and sensitivity visualization dashboards
- Developed custom voice command parser with natural language processing to interpret multi-parameter inputs in real time
- Adopted by active user community for strategic decision-making; recognized by platform developers for analytical accuracy

EDUCATION

Master of Health Administration (MHA) | Western Governors University | *6 Excellence Awards*

B.S. Health Information Management | Western Governors University

A.A.S. Polysomnography | Delgado Community College
